THE RAPTURE, ONE-WORLD GOVERNMENT AND THE "GREAT

TRIBULATION"-Luis Muñoz 2013-08-13 This book explains in great detail and exceptional clarity the issues related to the rapture of the Church, the government of the Antichrist, the "great tribulation" and all the apocalyptic judgments which God will pour out upon the wicked world. The rapture of the Church will bring about the global collapse of the economic, political and religious institutions of the world. At that moment of monumental crisis, humanity will quickly look for a leader willing to put the world back together, offer them peace and security. The world will host a false prince of peace called the Antichrist. He will elate the masses by telling them what they want to hear. However, he will push humanity to the deepest levels of degradation, vice, immorality, crime, war, violence, and rebellion against God. He will corrupt the social and moral order and as a result, billions of people will die. He will plunge the world into spiritual darkness and lead humanity astray. The Antichrist's empire "shall devour the whole earth trample it and break it in pieces" (Daniel 7:23 NKJV). This will be a period characterized by widespread wars which will bring death to billions of people: "For in those days there will be tribulation, such as has not been since the beginning of the creation which God created until this time, nor ever shall be" (Mark 13:19 NKJV). During this period, 25 and 33 per cent of

the world population will die in two major wars. If these conflicts were to happen in our time, 3.56 billion people would die. However, before the Antichrist begins, God will take out of this world, all those who believe in Christ. Seven years later, the Lord Jesus will return to "destroy those who destroy the earth" (Rev. 11:18b) and establish His everlasting kingdom on Earth. Then, "The wolf and the lamb shall feed together. The lion shall eat straw like the ox, and dust shall be the serpent's food. They shall not hurt nor destroy in all My holy mountain", says the LORD" (Isaiah 65:25 NKJV).

The World According To Israeli Newspapers-Margret Müller 2017-01-26

Since its outbreak, the Israeli-Palestinian conflict has been shaped by international involvement. These external engagements in the conflict are primarily transmitted to Jewish Israelis through the Israeli mass media. These media portrayals shape not only perceptions of the "global" attitudes towards the conflict, but in so doing they also influence and legitimize domestic political debates and decisions. This research is guided by the question how Israeli newspapers represent international involvement in the Israeli-Palestinian conflict. How is the involvement contextualized and how qualified? Do societal constructs and beliefs shape the media representations and if so, in which manner? Do media representations differ in times of crisis and routine? Margret Müller explores these questions in a

content analysis of the four general daily Israeli newspapers' media coverage during the Gaza flotilla raid 2010.

Socio-Economic Disparities in Israel-Fanny Ginor 1979-01-01 This study of the social and economic disparities in Israel spans the period from the early 1920s up to the present. An investigation into historical development is combined with a thorough analysis of causes of economic inequality and poverty. Special attention is paid to the socio-economic differences between and within the communities -- the two main Jewish groups (European and Oriental) and the Arab population. Further subjects include the examination of the impact of economic growth and structural changes on inequality; the analysis of income distribution by family types; and the influence of the working wife on family income and inequality. International comparisons and the analysis of inequality in the world show Israel in a wider perspective and lend the study a more general character. Contents: Introduction: Concepts and Measurement / The Mandatory Period / Socioeconomic Development of Income Distribution / An Historical Aspect / Factors Affecting Earning and Income Differentials / Determinants of Family Income / Poverty in Israel / Israel in the World / Income Distribution in the World

New Directions in the Sociology of Human Rights-Patricia Hynes 2016-03-23 New Directions in the Sociology of Human Rights is a contribution to both sociology and to human rights research, particularly where these are directed towards challenging power relations and inequalities in contemporary societies. It expands and develops the sociology of human rights as a sub-field of sociology and interdisciplinary human rights scholarship. The volume suggests new directions for the use of social and sociological theories in the analysis of issues such as torture and genocide and addresses a number of themes which have not previously been a sustained focus in the sociology of human rights literature. These range from climate change and the human rights of soldiers, to corporate social responsibility and children's rights in relation to residential care. The collection is thus multi-dimensional, examining a range of specific empirical contexts, and also considering relationships between sociological analysis and human rights scholarship and activism. Hence in a variety of ways it

points the way for future analyses, and also for human rights activism and practices. It is intended to widen our field of vision in the sociology of human rights, and to spark both new ideas and new forms of political engagement. This book was published as a special issue of The International Journal of Human Rights.

Palestine and the International Criminal Court-Seada Hussein Adem 2019-04-05 This book deals with the possible investigation and prosecution by the International Criminal Court (ICC) of crimes allegedly committed in the Israeli-Palestinian conflict. In light of the Rome Statute and the Practice of the Office of the Prosecutor of the Court, among others, it examines the route, possible outcomes, and challenges that may arise were the Palestine situation to be brought before the ICC. The subject matter is approached using the route the Prosecutor of the Court would generally employ to deal with situations. The publication offers a step-by-step procedure by which to conduct the preliminary examination and investigation of the situation in Palestine and deals with matters of jurisdiction, followed by a discussion of the fundamental concepts of complementarity and gravity to determine the admissibility before the ICC. Alleged crimes particularly unique to the Israeli-Palestinian conflict, such as the construction of settlements, forced displacement, house demolitions, the expropriation of land, the crime of apartheid and the blockade of Gaza, are dealt with in light of the Rome Statute and international law. On the basis of the established theories of transitional justice, the possible impacts of an ICC investigation and prosecution on the conflict are analysed and a number of insights are shared with regard to the impacts of the ICC on combatting impunity, fostering Palestine's statehood, peace negotiations and the stability of the region. Due to the politicisation of the conflict and the various interests at stake, the impact of the ICC's involvement on the credibility of the ICC itself is also reviewed. Recognizing the numerous impacts of the conflict on the existence of the two nations and the multitude of causes for its perpetuity, it does not limit itself to the ICC, but also provides other conflict resolution alternatives that could enable reconciliation and sustainable peace in the

region. This book provides an array of opinions and a crucial input for researchers and practitioners alike, while it is also useful to those investigating and possibly involved in prosecutions regarding Palestine or other similar situations before the ICC. Seada Hussein Adem obtained a PhD from Humboldt University of Berlin, Germany, an LLM from the University of the Western Cape, South Africa, and an LLB from Haramaya University, Ethiopia./div

The Ethnic Cleansing of Palestine-Ilan Pappé 2007-09-01 The book that is providing a storm of controversy, from 'Israel's bravest historian' (John Pilger) Renowned Israeli historian, Ilan Pappé's groundbreaking book revisits the formation of the State of Israel. Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East.

Israel in the World-Emanuel Adler 2013 Since independence, Israel has lived with a paradox, needing and seeking legitimacy, understanding, and empathy from the world community while simultaneously also discounting the world. This volume reflects upon Israel's troubled attempts to balance its desire to be different from a world that it simultaneously genuinely needs and that it also wants to be a legitimate member of. Gathering distinguished scholars and public figures, this timely book discusses the causes and consequences of Israel's unsettled relations with the world. With essays ranging from an account of Israel's exile mentality and the cosmopolitanism of suffering to a fragmenting international legal order and whether an authentic religious process can transform religion into a powerful lever for peace, the book's innovative analysis will spark both academic and public debate. *Israel in the World: Legitimacy and Exceptionalism* will appeal to scholars and students with broad ranging research interests including

Middle East Studies, Israeli Studies and international relations more generally.

Redefining Palestinian Women Organizations' Activism Under Jewish Democratic State Restrictions-Shadi Bayadsy 2021 This book provides an overview of Palestinian women organizations and their advocacy for emancipation and equality in Israel, with a particular focus on the different strategies that allow them to navigate challenging restrictions without being shut down by state apparatuses or by societal institutions and localities.

Standard-Setting at UNESCO-Abdulqawi A. Yusuf 2007-10-15 Standard-setting represents one of the main constitutional functions of UNESCO and an important tool for realizing the goals for which the Organization was created. In addition to conventions and recommendations, the declarations adopted by the General Conference promulgate principles and norms intended to inspire the action of Member States in specific fields of activity. This first of a two-volume work on Standard-setting in UNESCO contains the essays presented at a symposium held on the occasion of its sixtieth anniversary. Topics addressed in Normative Action in Education, Science and Culture include methods of elaboration and implementation; constitutional objectives and legal commitments; international collaboration; and impact. Co-publication with the UNESCO.

Because God Made a Promise to Abraham-Buddy Selman 2011-01 Because God made a promise to Abraham concerning inheriting the land of Israel, a question arises. To which line of Abraham's descendants was the Promise made? That's important because they worship different Gods. This poses the problem, who is the true God? This is the question of the ages concerning all claims of Deity. All things of life and death depend on that answer. This book addresses questions from the perspective that the God of the Bible through Abraham, Isaac, and Jacob is the true God and the God of

true Christianity. It distinguishes between true and counterfeit Christianity. The war that started with Satan's attempt to dethrone God and elevate himself to the Almighty is the defining factor of conflict. Association is made between spiritual determinations and earthly happenings. The next earthly event distinguishing where we are in time is the Russian invasion of Israel. The only remaining possibility for Satan's success is stopping God from keeping His promise to Abraham. The mid-east peace problem is not just about ownership of land, but about "who is God"? Also addressed - doctrines and theories taught in error. Dispensations, covenants, and promises are defined. How Revelation is structured and plays out is explained. The purpose of the book is to cause the reader to "think." Not just about things termed "religious" but in truth, how all things are related, especially "political." Hopefully it gives insight on how to prepare mentally, spiritually, and materially for what Scripture says will happen. Evidence shows we are the generation that experiences the Biblical end times and the fulfillment of God's promise to Abraham. America must choose - follow the true God or the Satanic one-world government! The book challenges the true Church to reestablish scripture as our highest authority and be about our task.

Rapprochement, Change, Perception and Shaping the Future-Alfred Wittstock 2016-03-14 The relations between the two states and societies have been rather complex during both the previous half-century and beyond. Embedded in changing political landscapes, the ramifications reach back to the early 19th century. Yet the uniqueness of the relationship network only shows in light of the wholesale murder of Jews in Europe, the creation of the State of Israel, the discussions surrounding the initiation of diplomatic relations and their arrangement until the present day. The development and intensity of the relations with regard to civil society and politics are quite astonishing when considering the beginnings. Approaches, changes and the in part greatly-varying perceptions of the other side can be observed over the course of 50 years of history, and these give rise to questions concerning the current state of the relationship and its future design.

Religion of Fear-Jason C Bivins 2008-08-29 Conservative evangelicalism has transformed American politics, disseminating a sometimes fearful

message not just through conventional channels, but through subcultures and alternate modes of communication. Within this world is a "Religion of Fear," a critical impulse that dramatizes cultural and political conflicts and issues in frightening ways that serve to contrast "orthodox" behaviors and beliefs with those linked to darkness, fear, and demonology. Jason Bivins offers close examinations of several popular evangelical cultural creations including the Left Behind novels, church-sponsored Halloween "Hell Houses," sensational comic books, especially those disseminated by Jack Chick, and anti-rock and -rap rhetoric and censorship. Bivins depicts these fascinating and often troubling phenomena in vivid (sometimes lurid) detail and shows how they seek to shape evangelical cultural identity. As the "Religion of Fear" has developed since the 1960s, Bivins sees its message moving from a place of relative marginality to one of prominence. What does it say about American public life that such ideas of fearful religion and violent politics have become normalized? Addressing this question, Bivins establishes links and resonances between the cultural politics of evangelical pop, the activism of the New Christian Right, and the political exhaustion facing American democracy. Religion of Fear is a significant contribution to our understanding of the new shapes of political religion in the United States, of American evangelicalism, of the relation of religion and the media, and the link between religious pop culture and politics.

Clinton's Partial Legacy - Wars of Interdependence-Robert R. Morman 2000 This book describes arrogant, legacy-bound, dictatorial Clinton's role in "Wars of Interdependence" that ceded U.S. sovereignty to non-elected United Nations' bureaucrats and its "hired mechanic," NATO. Clinton's Executive Order, PDD 13, served as the "defining or 'divine' authority." Clinton was instrumental in deployment of U.S. armed might in Somalia, Haiti, Iraq, Bosnia, Afghanistan, Sudan, Kosovo, East Timor and elsewhere. His modus operandi is to instill "peace by force," everywhere if possible, and then seek "congressional approval and support-after the fact." Clinton is an unabashed, dedicated globalist who favors borderless nations, multiculturalism, diversity and a non-elected one world government at the "expense and denial" of individualism, 'relatively pure cultures,' unifying national languages, patriotic nationalism and sovereignty. The U. S. suffered through the Revolutionary War against the British and our tragic Civil War only to have its hard won heritage scuttled unceremoniously by

scurrilous Clinton! Signs of displeasure with "political-economic interdependence and subjugation to international bodies" are occurring in European countries like Austria, Belgium, Italy, France, Spain, Germany, Congo, Turkey, and Russia among others with resurgent signs of fervent "nationalism".

Islamophobia-Stephen Sheehi 2010-12-03 Islamophobia: The Ideological Campaign Against Muslims examines the rise of anti-Muslim and anti-Arab sentiments in the West following the end of the Cold War through GW Bush's War on Terror to the Age of Obama. Using "Operation Desert Storm" as a watershed moment, Stephen Sheehi examines the increased mainstreaming of Muslim-baiting rhetoric and explicitly racist legislation, police surveillance, witch-trials and discriminatory policies towards Muslims in North America and abroad. The book focuses on the various genres and modalities of Islamophobia from the works of rogue academics to the commentary by mainstream journalists, to campaigns by political hacks and special interest groups. Some featured Islamophobes are Bernard Lewis, Fareed Zakaria, Thomas Friedman, David Horowitz, Ayaan Hirsi Ali, Irshad Manji, George W. Bush, Dick Cheney, John McCain, Hilary Clinton and Barack Obama. Their theories and opinions operate on an assumption that Muslims, particularly Arab Muslims, suffer from particular cultural lacuna that prevent their cultures from progress, democracy and human rights. While the assertion originated in the colonial era, Sheehi demonstrates that it was refurbished as a viable explanation for Muslim resistance to economic and cultural globalization during the Clinton era. Moreover, the theory was honed into the empirical basis for an interventionist foreign policy and propaganda campaign during the Bush regime and continues to underlie Barack Obama's new internationalism. If the assertions of media pundits and rogue academics became the basis for White House foreign policy, Sheehi also demonstrates how they were translated into a sustained domestic policy of racial profiling and Muslim-baiting by agencies from Homeland Security to the Department of Justice. Furthermore, Sheehi examines the collusion between non-governmental agencies, activist groups

and lobbies and local, state and federal agencies to in suppressing political speech on US campuses critical of racial profiling, US foreign policy in the Middle East and Israel. While much of the direct violence against Muslims on American streets, shops and campuses has subsided, Islamophobia runs throughout the Obama administration. Sheehi, therefore, concludes that Muslim and Arab-hating emanate from all corners of the American political and cultural spectrum, serving poignant ideological functions.

Mythologies Without End-Jerome Slater 2020 In Mythologies Without End, Jerome Slater takes stock of the conflict over time and argues that US policies in the region are largely a product of mythologies that are often flatly wrong. Because of their widespread acceptance, there have been devastating consequences to the true interests of both countries. He argues that a critical examination and refutation of the many mythologies is a necessary first step toward solving the Arab-Israeli conflict.

The Economic Costs of the Israeli Occupation for the Palestinian People: Cumulative Fiscal Costs-United Nations Conference on Trade and Development (UNCTAD) 2020-11-02 The study addresses the leakage of Palestinian fiscal revenue to Israel and provide up-to-date data on the sources of losses of Palestinian fiscal resources. It explains that the fiscal costs are part of the overall economic costs caused by occupation and consists of two components: (i) Palestinian fiscal leakage to Israel under the PER, and (ii) other fiscal losses that are not leaked to Israel but caused by policies and measures imposed under the prolonged occupation.

The Israel Lobby and US Foreign Policy-John J Mearsheimer 2008-06-26

Does America's pro-Israel lobby wield inappropriate control over US foreign policy? This book has created a storm of controversy by bringing out into the open America's relationship with the Israel lobby: a loose coalition of individuals and organizations that actively work to shape foreign policy in a way that is profoundly damaging both to the United States and Israel itself. Israel is an important, valued American ally, yet Mearsheimer and Walt show that, by encouraging unconditional US financial and diplomatic support for Israel and promoting the use of its power to remake the Middle East, the lobby has jeopardized America's and Israel's long-term security and put other countries - including Britain - at risk.

One World Divisible-David Reynolds 2015-09-24 The second half of the twentieth century was dominated by the unfolding drama of the Cold War, from the Berlin blockade to the fall of the Berlin Wall. A booming global economy has had its sinister shadow in the apparently insoluble crises that have beset much of the Third World. Above all, peace in the West has been offset by wars of unbelievable murderousness elsewhere. Reynolds' account is both an overview of the trends underlying this spectacular and awful variety, and an insight into the lives led in its midst.

A Threshold Crossed-Omar Shakir 2021 "The widely held assumption that the Israeli occupation of Palestinian territory is a temporary situation and that the 'peace process' will soon bring an end to Israeli abuses has obscured the reality on the ground today of Israel's entrenched discriminatory rule over Palestinians. A single authority, the Israeli government, rules primarily over the area between the Jordan River and Mediterranean Sea, populated by two groups of roughly equal size, methodologically privileging Jewish Israelis while repressing Palestinians, most severely in the Occupied Palestinian Territory (OPT), made-up of the West Bank, including East Jerusalem, and Gaza. Drawing on years of human

rights documentation, case studies and a review of government planning documents, statements by officials and other sources, [this report] examines Israel's treatment of Palestinians and evaluates whether particular Israeli policies and practices in certain areas amount to the crimes against humanity of apartheid and persecution."--Page 4 of cover.

Understanding Israel/Palestine-Eve Spangler 2019-05-15 Understanding Israel/Palestine contains a historic review of the conflict, an assessment of competing intellectual and political frameworks (Israeli self-defense, genocide, apartheid, ethnic cleansing) for understanding it, and a moral argument in favor of human rights as the basis for resolving it.

Surrounded-Rhoda Ann Kanaaneh 2008-10-10 An estimated 3,000 Palestinian citizens of Israel currently volunteer to serve in the Israeli military, a force fighting other Palestinians just miles away in occupied territories. Surrounded takes a close look at this controversial group of soldiers, examining the complex reasons these people join the army and the wider implications of their decisions in terms of security and citizenship. Most observers perceive a clear and powerful divide in the political tensions and open hostilities between the State of Israel and the Palestinian people, but often fail to notice those who straddle this divide—Palestinian citizens of Israel. These soldiers comprise no more than half a percent of this population, but their stories provide a powerful vantage point from which to consider a question faced by all Palestinians in Israel: to what extent are they, in fact, Israeli? Surrounded contains over seventy interviews with soldiers, and provides a unique glimpse of their conflicting experiences of acceptance, integration, and marginalization within the Israeli military. Concluding with comparisons to similar situations around the world, the book upends nationalist understandings of how wars and those who fight in them work. A key to a more complex understanding of ethnic conflict, this gripping and revealing look at a select group of soldiers will immensely alter ideas about the reasons why people choose to fight, particularly on "the wrong side" of a war.

Israel Year Book on Human Rights-Yoram Dinstein 1989-05-01 The "Israel Yearbook on Human Rights- an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971- is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war, with particular emphasis on problems relevant to the State of Israel and the Jewish people. The" Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English (including summaries of judicial decisions, compilations of legislative enactments and military proclamations). The Articles section of Volume 33 contains articles on Legal Aspects of Emergency Regimes.

Contemporary State Terrorism-Richard Jackson 2009-09-10 This volume aims to 'bring the state back into terrorism studies' and fill the notable gap that currently exists in our understanding of the ways in which states employ terrorism as a political strategy of internal governance or foreign policy. Within this broader context, the volume has a number of specific aims. First, it aims to make the argument that state terrorism is a valid and analytically useful concept which can do much to illuminate our understanding of state repression and governance, and illustrate the varieties of actors, modalities, aims, forms, and outcomes of this form of contemporary political violence. Secondly, by discussing a rich and diverse set of empirical case studies of contemporary state terrorism this volume explores and tests theoretical notions, generates new questions and provides a resource for further research. Thirdly, it contributes to a critical-normative approach to the study of terrorism more broadly and challenges dominant approaches and perspectives which assume that states, particularly Western states, are primarily victims and not perpetrators of terrorism. Given the scarceness of current and past research on state terrorism, this volume will make a genuine contribution to the wider field, particularly in terms of ongoing efforts to generate more critical approaches to the study of political terrorism. This book will be of much interest to students of critical terrorism studies, critical security studies, terrorism and political violence and political theory in general. Richard Jackson is Reader in International Politics at the University of Wales, Aberystwyth. He is the founding editor of the Routledge journal, Critical Studies on Terrorism and the convenor of the BISA Critical Studies on Terrorism Working Group

(CSTWG). Eamon Murphy is Professor of History and International Relations at Curtin University of Technology in Western Australia. Scott Poynting is Professor in Sociology at Manchester Metropolitan University.

Al Jazeera and the Global Media Landscape-Tine Ustad Figenschou 2013-10-15 This book analyzes how and why Al Jazeera English (AJE) became the channel of choice to understand the massive protests across the Arab world 2011. Aiming to explain the 'Al Jazeera moment,' it tracks the channel's bumpy road towards international recognition in a longitudinal, in-depth analysis of the channel's editorial profile and strategies. Studying AJE from its launch in mid-November 2006 to the 'Arab Spring', it explains and problematizes the channel's ambitious editorial agenda and strategies, examines the internal conflicts, practical challenges and minor breakthroughs in its formative years. The Al Jazeera-phenomenon has received massive attention, but it remains under-researched. The growth of transnational satellite television has transformed the global media landscape into a complex web of multi-vocal, multimedia and multi-directional flows. Based on a combination of policy-, production- and content analysis of comprehensive empirical data the book offers an innovative perspective on the theorization of global news contra-flows. By problematizing the distinctive characteristics of AJE, it examines the strategic motivation behind the channel and the ways in which its production processes and news profile are meant to be different from its Anglo-American competitors. These questions underscore a central nexus of the book: the changing relationship between transnational satellite news and power.

An "I" Israel for Another "I" Islam-Francis Lis 2012-05 This is a book written in the contemporary and speaks about a more-than-possible future that is to come to the world and how America betrays Israel for Islam! It is as things today in America are like with this present government, and it describes things as they really are and not as one would like them to be or want them to be and so is written as things really are. Also this book is based on facts but written in a fictional setting, but it should not be taken lightly and must be read in order to understand what is really happening behind the scenes, where international bankers and their New World Order are running things until the Antichrist appears on the scene. But first the rapture of the saints must occur according to Scripture. Wake up for our redemption draws near, and so it is not too late to be on God's side. When it comes to Israel and the Jewish people, his Chosen People, only a remnant shall be saved, and right now there are about 17 million Jews in the world but only about 300,000 are Messianic Jewish people, which the majority of Jews hate and the Gentile church is trying to replace!

Angels on the Move-Helen Rylance 2012-01-18 This is the third in a series of books based in Britain in the post Rapture period of the world's history, and forewarns of a world yet to come. A group of people are left behind on earth after all the Christians have been taken to Heaven, leaving only none believers in the Lord Jesus Christ occupying the earth. As the Christians leave the earth chaos breaks out throughout the world as planes fall from the skies, cars and trains crash as their Christian drivers are taken to Heaven, leaving many other people dead and injured. As people are removed from the earth, the worlds systems also crash, leaving the infrastructure of the whole world in chaos. The story follows the lives of a group of survivors who have become followers of Jesus Christ since the Rapture. War has broken out and the Antichrist is now in control of the World Government and its systems, he is using a system known as the Mark of the Beast, to control the buying and selling of all goods and services. This group haven't taken the Mark of the Beast and are therefore unable to buy anything. How do they manage to survive? How are they protected from the horrors that fall upon the rest of the world? How do they manage to travel around? In this book the survivors have already lived through three years of a world that has had very little food, transport or material possessions, and a great deal of tribulation, but God has promised to provide for His children.

Coping with Terror-Ira Sharkansky 2003 Coping With Terror argues that strategic responses to terrorism must focus on managing this serious problem rather than solving it outright. Author Ira Sharkansky describes personal and collective stresses associated with terror, and examines the idea of coping as the key to understand how policymakers, military

personnel and ordinary citizens deal with these stresses.

THE ISRAEL LOBBY AND U. S. FOREIGN POLICY-N. Nourizadeh
2014-02-13 This book is about politics and the close relation between Israel and US foreign policy.
